Chris Fizz Hansford  
A Camera Dolly Grip

For whom it may concern,

I want by this letter to encourage any Cinematographers, Producers or Key Grip seeking for a great Dolly grip to work with Chris ( Fizz ) Hansford.

I have hired Chris after seeing his very good resume and hearing great recommendations about him .

I have now worked Chris have worked with him on the movie "OKJA" produced by Netflix and Directed by Bong Joon Ho,. I have to say that Chris is even better than his great reputation, one of our best crew asset on the film , he was always there for us.

Excellent at what he was doing: Dolly grip but also very helpful and helping the grip crew and making sure we were always supported and very much production friendly as well.

He is a great team partner, always at the DP's side, listening and ready to react, always positive about the work to be done, a problem solver and again  
The finest at his Dolly grip work.

I can strongly recommend him for anyone seeking to build an A list crew.

Sincerely,

Darius Khondji
